

## The Inventory Reliance Score Report November 2024

Vertical IQ and Lendovative are working together to provide the Inventory Reliance Score – a sales tool for lenders that provides accounts receivable (AR) financing to SMBs in the United States. Utilizing data from the Risk Management Association (RMA) relating to AR and average industry growth rates, the Inventory Reliance Score serves as an indicator of how likely specific NAICS groups are to need receivables financing over the short term.

If you would like to know more about the full scope of Vertical IQ's and Lendovative Technologies' services, reach out to either organization at info@verticaliq.com or info@lendovative.com.
